

## CHOOSE TEACHING. CHANGE THE FUTURE.

Do you have a degree in science, math, engineering, or computer science? **You're ready to become a teacher.** Get a STEM teaching certificate through the award-winning UTeach program in just five months.

Texas students need teachers who know their subject matter and how to teach it. Our program is uniquely qualified to prepare effective, knowledgeable teachers.

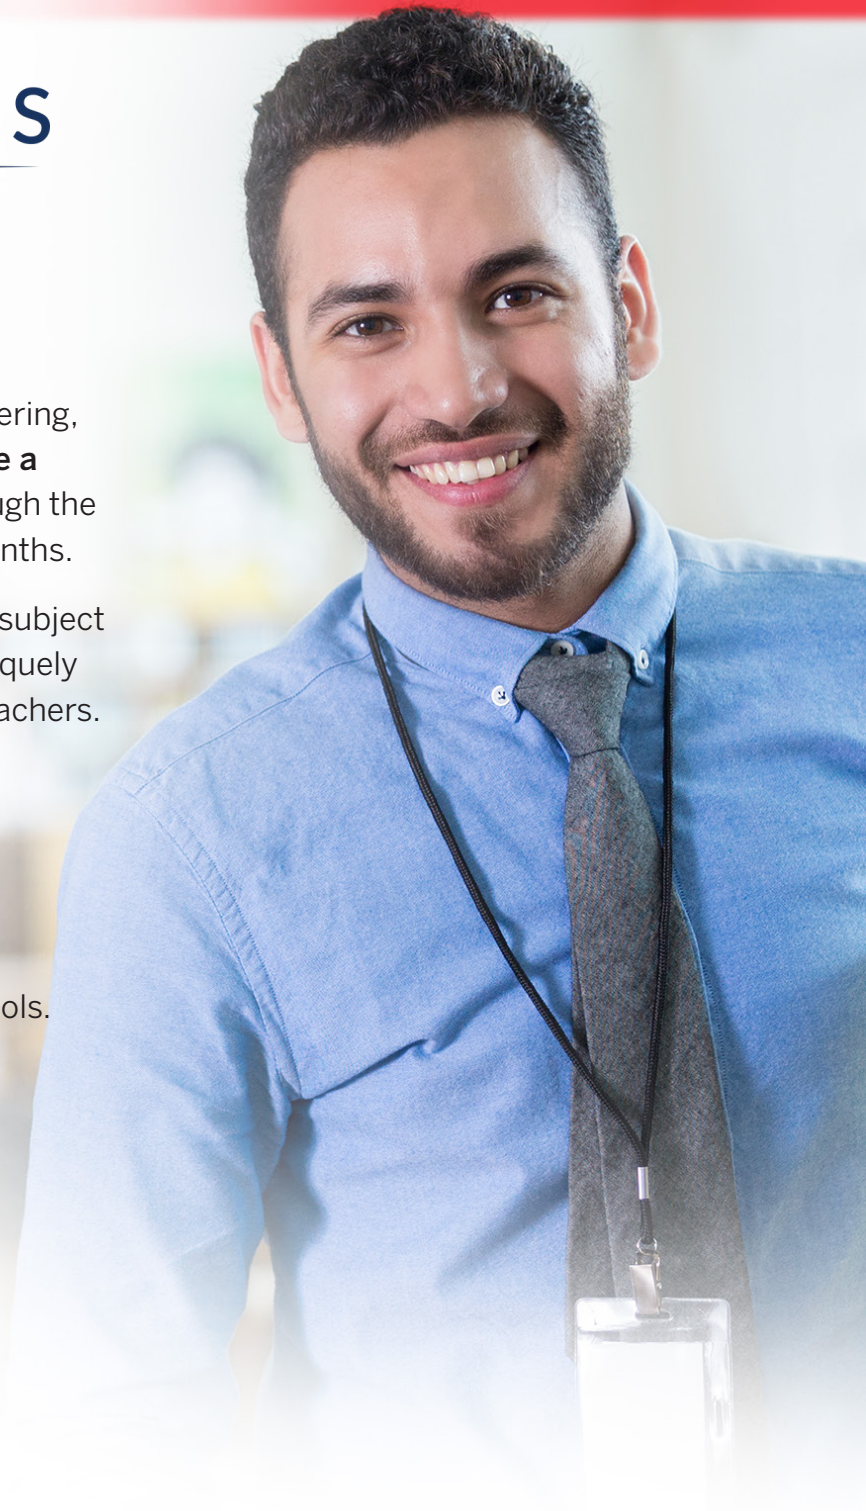

## You will

- Participate in virtual classes with university faculty.
- Train with secondary teachers in local schools.
- Engage in a summer fellowship with opportunities to refresh your subject matter expertise.
- Continue receiving personal support after you become a classroom teacher.

## Program features

- Online evening courses
- Compact, streamlined curriculum
- 80 hours of field work in a STEM classroom
- Personalized coaching
- Inquiry-based learning focus
- Follow-up professional learning

Teachers prepared by university-based programs like UTeach are retained longer and their students perform better. UTeach for Texas is leading the charge to solve the teacher shortage crisis while ensuring that every Texas student is taught by an excellent STEM teacher.
