

Join us to recruit, develop, and retain highly prepared STEM educators and help solve the teacher shortage.

UTeach for Texas is an innovative, accelerated teacher preparation program for STEM degree holders. Candidates are prepared and supported by UTeach, the premiere math, science, and computer science teacher certification program in Texas since 1997.

Program features

- Online evening courses
- Compact, streamlined curriculum
- 80 hours of field work in a STEM classroom
- Inquiry-based learning focus
- Follow-up professional learning

About the partnership

UTeach for Texas

- provides five months of coursework and field experience
- offers multi-year induction and professional development program
- supports candidates with personalized coaching and mentoring

School districts

- help recruit candidates and provide placements for field experience
- offer a STEM teaching position and collaborate to ensure ongoing support
